ABOUT ME

Full-Stack Developer with hands-on experience building production Django web applications. Developed SkinCraft Ayurveda – a full-featured e-commerce platform with AI product recommendations, multi-role admin panels, and Razorpay payment integration. Currently completing a BCA (CGPA: 8.5) at Gujarat University with a strong foundation in Python backend development and responsive frontend design. Seeking a junior developer role where I can contribute to scalable web products and grow within an engineering team.

EDUCATION

Gujarat University Bachelor of Computer Application(BCA)	2023-2026
Som-Lalit Institute of Computer Application (CGPA: 8.5)	Ahmedabad, Gujarat
Sardar Patel School Class 12 th (Commerce)	March-2023
Higher Secondary (Grade : 99.60PR)	Gondal, Rajkot

EXPERIENCE

Python Development Intern | ForthTech Solution - Ahmedabad Jan 2026 - Feb 2026

- Developed and deployed 4+ Django REST API endpoints with MySQL and SQLite integration, implementing secure CRUD operations and optimizing backend query performance for faster response times.
- Built responsive and user-friendly web interfaces using HTML5, CSS3, Bootstrap 5, and JavaScript while collaborating in QA testing to reduce UI-related issues.
- Worked in an Agile development environment, actively participating in daily standups and sprint reviews while contributing to 3 successful production feature releases.

PROJECTS

SkinCraft Ayurveda (Django · Python · SQLite · Bootstrap · API Integration)

- Developed a full-stack Django-based Ayurvedic e-commerce platform featuring JWT authentication, multi-role admin management, dynamic inventory handling, and secure order processing for 50+ products.
- Integrated Razorpay payment gateway with complete cart-to-checkout workflow, including automated payment verification, order tracking, and real-time status management.
- Built an AI-powered product recommendation chatbot using OpenAI API and intent-based query mapping, while designing 8+ responsive Bootstrap 5 interfaces optimized for cross-device user experience.

Fashion Factory (Laravel · PHP · MySQL · Bootstrap · Java Script)

- Engineered a full-stack Fashion E-Commerce platform using Laravel, PHP, and MySQL featuring secure authentication, dynamic product catalog, shopping cart, checkout workflow, and order lifecycle management.
- Architected an advanced admin management system with CRUD operations for products, users, orders, customer queries, and return/exchange request handling integrated with relational database architecture.
- Implemented responsive and scalable frontend interfaces using Bootstrap, JavaScript, HTML, and CSS to deliver optimized cross-device user experience and seamless customer interaction.

TECHNICAL SKILLS

- Programming Languages:** Python, PHP, Java, JavaScript, ASP.NET, C
- Frontend:** HTML, CSS, Bootstrap, React.js
- Backend:** Django, Laravel, Rest API, Backend Development, MVC Architecture
- Database:** MySQL, SQLite, PostgreSQL
- Tools & Concepts:** Git, GitHub, Version Control, CI/CD, Unit testing, Postman
- Soft Skills:** Communication, Teamwork, Problem Solving

ACHIEVEMENTS

- CTF 3.0 Ethical Hacking:** Participated in the CTF 3.0 Ethical Hacking event organized at college and secured 1st rank by demonstrating problem-solving, cybersecurity, and ethical hacking skills.
- Cybersecurity Analyst Job Simulation:** Successfully completed Tata Group Cybersecurity Analyst Job Simulation focused on Basic platform knowledge, and custom cybersecurity solution development.
